In Austria, Jews held high Positions in business, medicine, law, and Journalism. Hitler believed this would ruin Austria. He decided that Marxists and Jews were in “a holy union” to destroy the world.

“If the Jew wins over the world with the help of Marxist doctrines,” he said, “then this crown will be the wreath of death for mankind. So I believe in the spirit of the Almighty Creator, I shall defend myself against the Jew. I shall Fight for the work of the Lord!”

From that time on Hitler attached the Jews as “dirty rats,” “parasites,” “bloodsuckers,” “tyrants.” He turned the full force of his hatred on the Jews.

A.J.P. Taylor . . .

:

"

.."

The following paragraphs, written by a British historian, A. J. P. Taylor help to explain the reasons for the initial successes of Hitler and his Nazis.

“the history of the Germans is a history of extremes. It contains everything except moderation, and in the course of a thousand years, the Germans have experienced everything except normality. They have dominated Europe, and they have been the helpless victims of the domination of others, they have enjoyed liberties unparalleled in Europe, and they have fallen victims to despotisms equally without parallel, they have produced the most transcendental philosophers, the most spiritual musicians, and the most ruthless and unscrupulous politicians. A German has meant at on moment a being so sentimental, so trusting so pious, as to be too glad for this world, and at another a being so brutal, so unprincipled, so degraded, as to be not fit to live. Both descriptions are true, both types of Ger - mane have existed not only at the same epoch, but in the same person..

-

-

"

-

()"

-

“Only the normal person, not particularly good, not particularly bad, healthy, sane, moderate – he has never set his stamp no German history. Geographically the people of the center, the Germans have never found a middle way of life, either in their thoughts of least of all in their politics. One looks in Vain in their history for a Juste milieu, for common sense the two qualities which have distinguished France and England Nothing is normal in German history except violent oscillations.”^()

: . . . ()

A.J.P. Taylor, The course of German History (New York 1947).^()

- The Germans were politically weak even before Hitler.
- Hitler Exploited the beliefs and fears of a frustrated people his clear purpose was to destroy European civilization and replace it with a barnarian empire.
- The Germans accepted him as messiah for whom they were awaiting.
- This political monster brought bisaster and ruin both Germany and the world.

We are witnessing the greatest miracle in history. A genius is building the world
“and again: we heard his voice while Germany slept. His hand has made us a nation
again, his hand had led us back to the Fatherland. Our whole life we give to the
Fuehrer.

:

..

..

Big and little Nazis joined the chorus: “A man the people, our Adolf Hitler, arose
and took German destiny into his strong, clean hands. We love Adolf Hitler, because
we believe deeply that God has sent him to us to save Germany.

" "

" "

What he does is necessary.
Whatever he does is necessary.
Whatever he does is successful.
Thus clearly the Fuehrer has the diving blessing

:

Special efforts were made to attract children to Adolf Hitler Here is a poster used for the Hitler Youth We All believe on this earth in Adolf Hitler, our Leader.

We believe that is a God in Heaven who created us, leads, and directs us, And we believe that God sent us Adolf Hitler so that Germany should be a Foundation stone in all Eternity.

—

" — "

Why all this sickening praise? It is an old story, ad old as human society itself, Dictators and tyrants are almost always obsessed with fear - fear they will lose power, fear that under ligs will become too powerful, fear that they will be over thrown, fear that they will be killed. Hence, they try to build up a picture of themselves as great and good men. Hitler used everything for this purpose – word of mouth, press, radio, movies, and the stage.

Sad to say, this racial nonsense became law in the Nazi Third Reich. It was code by which Germans were forced to live for twelve years.

race

:

-

-

:

-

- We speak of a race as a species or division of mankind. Thus, there are five main races: the white, black, brown, red, and yellow. But that is as far as we can go.

- There is no such thing a German race or a British race. It would be just as silly to say that there is an American race All these people, whether German or British, or Americans, form a nation, not a race.

!

- There is no such thing as a Jewish race. It would be just as foolish to speak a Catholic or Moslem race! These are religions, not race.

..

" "

- There is no such thing as an Aryan race. Aryans are merely people who belong to the same language group. Thus Germans, British, French, Italians, and Persians are al Aryan - speaking people.

" : " " "

Hitler denied all this. In Mein Kampf the said that the state must place as the central point of the life of the community, and must guard the preservation of its purity.

" :

Again, he said, the race question is the key not only to world history but also to human culture in general.

Hatred for the Jews

" " "

"

In Mein Kampf he wrote: "The black - haired Jewish youth lies for hours in ambush, a Satanic Joy in his face, for the unsuspecting girl whom he pollutes with his blood and steals her own race"

" "

(-)

As proof that the Jews wanted to dominate the world, Hitler reprinted millions of copies of a pamphlet called the protocols of the Elders of Zion. According to this little booklet, Jewish leaders from all over the world come to Switzerland once a year to meet on a cemetery and tell how each one is getting along on his campaign to control the life of his own country.,

Here was Hitler's criticism of Christianity:

- it was a religion that sided with everything weak and low.
- It was purely Jewish and oriental in origin.
- The religion began , years ago among sick, exhausted, and despairing men who had lost their belief in life.
- Christian ideas of "forgiveness of sin "resurrection "and "salvation" were just nonsense.
- The Christian idea of mercy was dangerous. One must never extend mercy to his enemies. "Mercy is an un - German conception."
- Christian "love" was silly: love paralyzes.

- The Christian idea of equality of all human beings meant that the inferior, the ill, the crippled, the criminal, and the weak were protected.

Here was the program of Hitler's new "German Christianity".

- Throw out the Old Testament – it is a Jewish book. Also throw out parts of the New Testament.
 - Christ must be regarded not as Jewish, but as a Nordic martyr put to death by the Jewe, a kind of warior who by His death saved the world from Jewish domination.
 - Adolf Hitler is the new Messiah sent to earth to rescue the world from the Jews.
 - The Swastika succeeds the cross as the symbol of German Christianity.
 - German land, German blood, German soul, German art these four must become the most sacred things of all.

Hitler did not openly come to the support of the new paganism. He was too shrewd a politician to do that. But he was not opposed to its ideas. In 1936, he awarded the National Prize, Germany's version of the Nobel prize, to Alfred Rosenberg. Nazi philosopher, wanted a return to the old Teutonic religion of fire and sword.

This was the high point of appeasement, the act of sacrificing principles to avoid aggression. Chamberlain flew home showing a signed paper and stating that had brought "peace for our time".

Winston Churchill called it "a disaster of first magnitude."

The Nazis were joyful. "You see," they said, "We told you the glorious Fuehrer can do no wrong!"

To Hitler, Germany was the greatest of all countries, "Today", he said "our movement stands like a rock, and every one of us is ready to fight for it to our last breath. God, who created the German People, has made us strong enough to do this. A nation like Germany riveted together with steel bands cannot be crushed by the ill will of the whole world. We reach forward a hand of friendship to all those who desire peace, but we will offer a mighty resistance to whomsoever refuses to recognize our independence and denies us equality of rights."

!

Hitler's ideas of right and wrong were clearly revealed in these secrets talks. Whatever the Nazis did for Germany, no matter what is was, was right. "we may be inhuman!" he said, "but if we save Germany we have repaired the greatest in justice in the world. We may be immoral! But if our people are saved, we have paved the way for morality."

Hitler's Inferno

Millions of people knew that Hitler had hated such "racially inferior people" as Jews, Poles, Czechs, and others. They had heard him say again and again that his "pure - blooded Aryan stock" would contort the world But - that Hitler would seek to murder all these people was just too much for any civilized mind to grasp. nevertheless, that was exactly what he had tried to do.

This marks the end of Hitler and the regime that plunged the world into war and formed the core of the fanatical German resistance that has cost so much Allied blood and effort.

The serious, cold - blooded, and wholly humorless Germans had exalted Nazism into a religion that proclaimed Hitler was only the Fuehrer of all Germans, but also their God..

Hitler fell as he was supposed to fall - in the roar and terror of battle amid the crumbling walls of his capital, in the Chancellery that had built as seat of his world dominion.
